Bridging Site & Finance

# Build Smarter, Faster

TDS Construction module empowers data-driven decisions. Reduce costs.

Improve efficiency. Contact us to revolutionize your construction process.

## OUR INVENTIONS

### TDS "COST STRUCTURE" ENGINE

A project sub-ledger that blocks unauthorized spending at the moment of request.

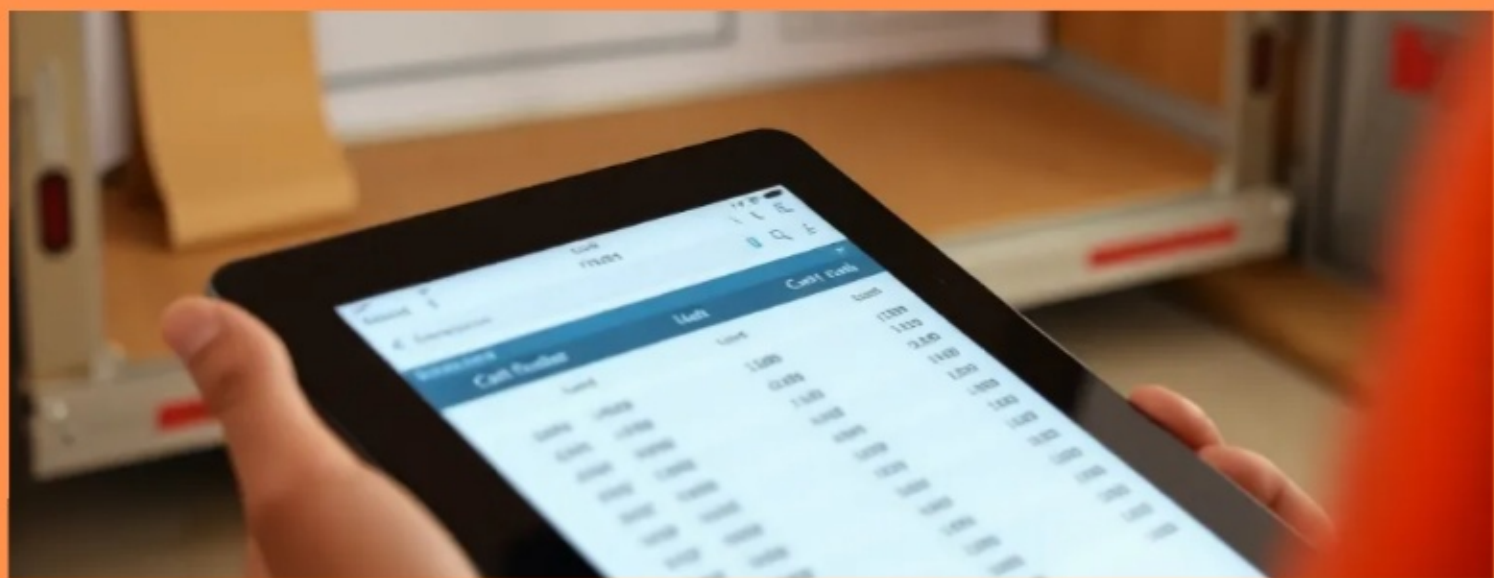

### LIFECYCLE LG TRACKER

Dynamic tracking of bank margins, commissions, and expiries to optimize bonding capacity.

### PDC LIQUIDITY PLANNER

A forecasting tool that looks into your safe to provide a realistic view of cash availability.

# KEY MODULE FEATURES

## Cost Code Management

Maintain precise cost control across every phase.

## Budget Tracking

Monitor budget vs. actual spend, ensure projects stay on track.

## Variance Analysis

Identify and address budget variances proactively.
